2 · The three biggest time savers

01 **Tenant reply drafts**
A helper in Outlook reads each tenant email, finds the answer in your house rules and FAQ sheet, and leaves a draft. The office checks and sends.
~~6.0~~ → 2.0 h
saves ~€7,360/yr

02 **Damage report form**
Tenants report through a short form: photo, where, since when. Incomplete reports get one automatic reminder. A draft job order for the craftsman is ready to approve.
~~4.5~~ → 1.5 h
saves ~€5,520/yr

03 **Invoice pre-fill**
Incoming craftsman invoices (PDF) are read and the booking is pre-filled in the property software. Accounts approves each one.
~~3.0~~ → 0.5 h
saves ~€4,600/yr

4 · First step

What	For whom	By when
Helper 01, tenant reply drafts	**The two office staff, in Outlook**	**Running 14 days after your go**

Check after two weeks: how many drafts were sent unchanged, how many needed edits, and minutes per email compared with the 6.5 we counted.

5 · 90-day estimate

MONTH	HELPER LIVE	H/WK SAVED	COST
1	01 Tenant reply drafts	4.0	€490 − €290 credited
2	+ 02 Damage report form	7.0	€490
3	+ 03 Invoice pre-fill	9.5	€490

At full speed the three helpers free about **9.5 h** a week, worth about **€1,460** a month. After month 3 they keep running in your accounts whether or not you continue with monthly help.

All savings are estimates. Each one is measured again two weeks after the helper goes live.

6 · What this plan doesn't cover

No tax or legal advice. Rent changes, notices and payments stay with the office. Any helper that handles tenant data starts only after a data processing agreement (Art. 28 GDPR) is signed.
